### 1. Product Name

Oat drink with cocoa UHT.

### 2. Description

Food product based on water, oats, sugar, fiber, cocoa and other ingredients that provide certain organoleptic characteristics of colour, aroma and taste. Once the ingredients are mixed, it is subjected to indirect UHT treatment and aseptically packaged, remaining at room temperature until it is consumed

### 3. Physical and Chemical Characteristics

Parámetro	Working limits	Acceptance limits
Fat (m/m)	0,4 -0,5 %	0,3 -0,6 %
Density (g/ml)	1,055 -1,065	1,050 -1,070
PH	6,50 - 7,00	6,40 -7,10
Alcohol test	Negative 80°	Negative 78°

### 4. Organoleptic characteristics

- Colour Brown uniform, characteristic of cocoa
- Flavour Characteristic, typical to cocoa
- Odour Characteristic, typical to cocoa

### 5. Microbiological characteristics

Parámetro	n	c	m	M
Listeria monocytogenes	5	0	Absence / 25 ml*	
Sterility test after incubation 15 days / 30°C ó 7 days / 55°C: ≤ 100 ufc /ml				
Stability test(control pH): negative				

\* Before it has left the immediate control of the company

n = number of units that compose the sample.

m = threshold value for the number of bacteria, the result is considered satisfactory if all units that the sample is composed have a number of bacteria equal to or less than m.

M = value limit of bacteria's number, the result is considered non satisfactory if one or more of the units in the sample have a number of bacteria equal to or greater than M.

c = number of units of the sample where the number of bacteria may be between m and M, the sample still being considered acceptable if the other units that include have a number of bacteria less than or equal to m.
